

BECCARIA

LIMITLESS INNOVATION

Beccaria Srl is specialized in the design and production of standalone machines, complete systems, and engineering studies solutions for bulk materials handling. With an extensive experience and a highly technical approach, Beccaria Srl delivers customized solutions tailored to meet the specific needs of each client, combining **technological innovation, reliability, and precision**. The company stands out for its ability to support clients throughout every stage of the project – from initial consulting to installation and final testing – ensuring **efficiency, sustainability, and high-quality production processes**.

1 Vertical **BUCKET ELEVATORS** can lift any type of bulk material, allowing to reach considerable heights and ensuring high hourly throughputs.

2 Fully openable **SCREW CONVEYOR** with inner spiral, suitable for food industry and sectors that require low product contamination.

3 **BIG BAG** Loading System for handling bulk materials

4 **BIG BAG** Unloading System

5 **ADDITIVES LOADING LINE** with dense phase pneumatic transport

6 Storage Silo mod. **SBP** (Bolted Panels) - **SLP** (Monolithic)

7 Tubular or U-trough screw conveyors for continuous mechanical transport of granules, regrind, powders or shredded materials

8 Single shaft horizontal batch mixer mod. **MA/1**
